

SERVICE DEDICATION EXCELLENCE

**A Web Welcome Message
by Mayor of Lucea
Councillor Shernet Haughton
Chairman of Hanover Parish Council**

Our Parish Council has been swept in a momentous way into cyberspace by the introduction of our new website. It is particularly pleasing, although a little belatedly to be able to say www.hanoverparishcouncil.gov.jm.

This does not mean by any stretch of the imagination that we have arrived. However, as communications technology looms larger and larger in the scheme of things, we have taken the first steps to place ourselves in line on global terms.

Our website is designed to be unique and easy to satisfy the needs of our valued clients, and it is hoped that we have proven this straightaway. Through constant updating, we will eventually achieve our optimum.

Welcome therefore, one and all to: www.hanoverparishcouncil.gov.jm. We have only just begun.

Residents of and visitors to Hanover will note that the challenges of building our parish are great. We have work to do. All hands must be on deck for this parish, our parish, our home, to succeed in going forward. For example, in spite of our vast resources which range from natural to human or vice versa, we earn insufficiently from too many areas of our parish life, and it is necessary to begin a paradigm shift. But we are not sitting on our hands. To the work!

We have bought into Vision 2030, making our parish, “the place of choice to live, work, raise families and do business”.

A big thank you to all the persons who have pulled this website together and may our efforts be crowned with success.

Log on now, to www.hanoverparishcouncil.gov.jm. It is a new medium to learn about us, do business with us, just to contact, or to keep in touch with us.

I thank you.

Regards,

Mayor Shernet Haughton
Chairman,
Hanover Parish Council
